D'VAR TORAH

Hashem places a choice before every Jew,
"Re'eh! See! the choice placed before you."
A curse or a blessing - are the options given,
A choice we all make, each day we are living.

You see, it does not say "natati" - "I gave you the choice,"
rather it says "noten" in a *present* tense voice.

The Gra points out an important idea,
Something we should live with, for as long as we're here.

Sometimes a Jew thinks, I'm on the path I have chosen,
I can't really change it- I'm stuck here, I'm frozen.
I decided my path many, many years back,
I wish I could change it, it's a choice I just lack.

The Torah says NOTEN! I have choices **right now!**
The actions of yesterday don't dictate how,
My next moment will be, or where I'll go from here.
A Jew's always Baderech, let's be abundantly clear!

Will our lives be full of bracha, of emunah and growth?
You're not stuck in last year, you're not under oath!
It's not set in stone, way back from your birth,
It's a choice that we make every second on earth!
As we start the month of Elul, and we get a brand new start,
Let's do Teshuva, and choose right, with all of our heart.

Shabat Shalom
